Description	Hex nut with a nylon-filled collar at its back end. When a screw reaches the collar, the threads and nylon form a tight, frictional fit, restricting movement of the screw when it is subjected to vibration. The nylon insert comes in various colors.	
Applications/ Advantages	Designed to be used with like-material machine screws and bolts. It is able to be reused more times than a two-way reversible nut. Steel nylon insert stop nuts are less expensive than grade-C automation lock nuts. However, nylon will begin to deteriorate at temperatures from 150˚-350˚ F.	
Material	***Steel***	***Stainless***
	#2 through 5/8" -- AISI 1008 - 1010 or equivalent steel; 3/4 through 1-1/2"-- AISI C1117 or equivalent steel.	18-8: AISI 303 or equivalent stainless steel. 316: Type 316 stainless steel.
Hardness	Rockwell C28 maximum	1/4 through 5/8"-- Rockwell B95 - C32; 3/4 through 1-1/2"-- Rockwell B80 - C32
Proof Load	90,000 psi. minimum	1/4 through 5/8"-- Rockwell B95 - C32; 3/4 through 1-1/2"-- Rockwell B80 - C32
Plating	Steel nylon insert stop nuts are usually supplied with a zinc plating.	Stainless nylon insert stop nuts are usually provided without any additional plating.
